

1

**Is it a good idea?**

```
graph TD; A[1 Is it a good idea?] --> B[2 Can government make it happen?]; B --> C[3 Will Commonwealth intervention help?];
```

2

**Can government make it happen?**

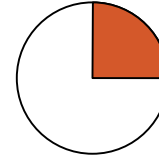

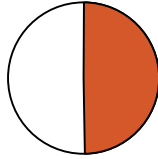

3

**Will Commonwealth intervention help?**

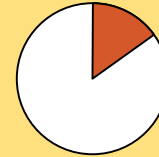

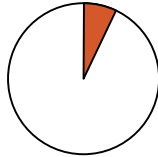

**‘Big data’**  
e.g. NAPLAN, PISA

**‘Small data’**  
e.g. intermittent  
classroom data

**Traditional skills**  
(e.g. reading, writing,  
numeracy, science)

**‘New’ capabilities**  
(e.g. critical and  
creative thinking,  
collaboration,  
resilience)

**Priority area  
to improve  
measurement**

— Extent to which student progress is currently measured
